

SANDING MACHINE Bb-1

Electro Sanding Machines

Reference : 86700000

1/2

Principal function:

For surface finish or parts (sanding, deburring), by means of abrasiva belts and discs. Abrasion degree easy to change.

Use:

For use in mechanical workshops, carpentry, plumbing, footwear industry, optics and orthopaedics.

Principal advantages:

- The machine can be given on a column and with an electro-ventilator with the function of aspiration.
- Ninuno of the materials used in the construction of the machine or used in his functioning generates risk for the safety and health of the workman.

TEHNICAL CHARACTERISTICS Bb-1

Ref: 86700000

| | |
|-------------------------------|--|
| Engine rating | 1,1 CV |
| R.P.M. | 2.800 |
| Supply power | 220/380 V |
| Frequency | 50 Hz. |
| Abrasive belt | 925 x 100 mm. |
| Abrasive belt | 1750 x 50 mm |
| Distance between belt centres | 425 mm. |
| Adaptable column | Nº3 |
| Column height | 755 mm. |
| Total height | 1633 mm. |
| Recommended suction unit | AV-05 (963.80.000) / AV-1 (964.80.000) |
| Work accesories | Miscellaneous grains |
| Weight: | 56,89 Kg. |
| Sound power in load: | 88,43 db(A) |
| Materials: | |
| Body | CAST IRON |
| Protections | AP-12 Steel |
| Coating | RAL-1003 TEXT. yellow paint |
| Paint | RAL-7035 grey paint |
| Axle | F-125 Steel |
| Type of current | Three-phase |
